Comments.

- 25X1 (1) [] on 6 October that only rear details were quartered in the Pionier Kaserne and the engineer equipment depot. [] The present report indicates that the elements of the 13th Gds Mecz Div stationed there had returned to their quarters during October 1950, as was observed with elements of the division at other posts.
- 25X1 (2) An engineer equipment dump on Siegelofengasse was reported to have been cleared in March 1949. [] The dump was probably located in the brickyard and was possibly to be put in operation again.
- 25X1 (3) The repair shop was reported for the first time. It may be the post repair shop.
- 25X1 (4) Motor vehicles [] driven by naval soldiers have been periodically observed in the naval garage (sic). A naval headquarters possibly of the Soviet Danube Flotilla, is probably stationed there.
- 25X1 (5) The report indicates that the elements of the GHQ AAA unit, possibly the 23d AAA Div or Regt, of the Central Group of Forces were still at their Korneuburg post on 15 November 1950. []
